

Cambrian Summer MATH FOR CREDIT

\$650

Our most popular summer offering combines **online preparation** with four weeks of in-class, personalized follow-up instruction. Whether a student needs math **CREDIT REPAIR** or is seeking **ADVANCED CREDIT** not offered by their own school, Cambrian's Summer Math program is always highly effective. Not only do students regularly demonstrate mastery, **they earn a full year's transferable credit.**

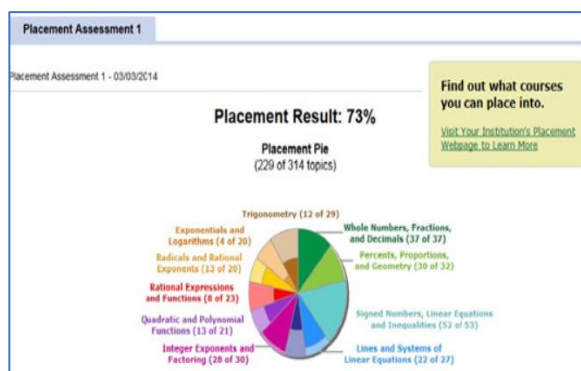

ONLINE

Four to six weeks before the start of the in-class session, a student receives access to an online program. Upon the first log-in, a short tutorial is provided, followed by the initial assessment. This assessment will validate placement and eliminate from the program any concepts that have already been mastered. A pie chart is revealed, showing concepts that the student will need to learn to complete the class. Simple tutorials are available for each topic, which help set a quick pace until the list is reduced to those concepts still requiring teacher support.

IN-CLASS

Students will then work with a teacher on campus four days per week for four weeks. At the program's conclusion, a letter grade will be issued based on topics completed, along with a transcript with transferable credit.

Cambrian Academy is accredited by the Western Association of Schools and Colleges, and the courses are UC approved, so they will transfer as full credit.

The reviews are in....

This review is for the summer program offered at Cambrian Academy. I was searching for a summer math course for my entering high school twins to attend. In the midst of my search on the internet, I stumbled across Cambrian's website, offering a summer math course that not only was comprehensive, small in class size, but allowed for transferable credit. This was absolutely amazing!

Cambrian International Academy is WASC accredited and a UC doorway school. I was happy with the small class size as it allowed my girls to get personable attention. Mr. Okoro was their summer math teacher and they really liked him. They had nothing but good things to say about him. They expressed that he was able to explain and articulate the math concepts in a way that was very easy to understand. My girls finished the course and were able to enter into a higher math course when school started at their high school.

The cost for the summer program was more than reasonable! Given that my twins had a great experience in the short time at the school and were able to advance to a higher math, I could not be happier. If you are thinking of a private school with unique academic programs, encouraging teachers, and staff willing to assist with your child's goals (particularly if you have ambiguous children), I would highly recommend you visit the school and see for yourself. We loved it and couldn't recommend it more highly!

-Taythena L., Leigh

* Students wanting IM3 and who want to continue to Calculus in the future should contact the office for more information.

ENGLISH – For Review

Reading, Composition, & Vocabulary

ENGLISH – READING AND COMPOSITION Monday – Thursday, 9:00am to Noon \$450

Students hone their English **reading** and **composition** skills using a combination of the Warriner’s series and our own proprietary materials.

9:00am to 10:25am

Students will work with age-appropriate novels and short stories to expand their reading comprehension skills.

10:35am to Noon

Students develop their composition skills. Learning to write with clarity and precision is a lifelong process that will contribute not only to academic success, but a happy and productive life as well.

CREDIT RECOVERY HOURS VARY \$500

HYBRID CLASSES VALIDATED BY CAMBRIAN ACADEMY

One problem with online classes, when credit is involved, is that cheating is known to be easy. Most programs cannot validate who actually took and passed the class. Colleges have access to our school profile that explains how we validate these classes.

Classes are offered through an approved vendor we have worked with for the last 10 years that gives us access to the back end of the system. Quiz grading is automated, assignments are graded by a **live teacher**, and **Unit Tests are proctored** by a Cambrian Academy faculty member on campus. All classes are **UC approved** and accepted by the **NCAA** for athletes entering college sports.

Most students can complete a single semester during the summer.

Students may start early, but **all Unit Tests must be taken on campus** after the summer session begins. Students who need more time after July 3 may schedule afternoon Unit Tests but must complete the Final Exam by August 2.

AVAILABLE

World History, Part 1
World History, Part 2
US History, Part 1
US History, Part 2
American Government
Economics
English 9, 10, 11, or 12, Part 1
English 9, 10, 11, or 12, Part 2
Intro to Programming Java, Part 1
Intro to Programming Java, Part 2
Spanish 1, 2, or 3, Part 1
Spanish 1, 2, or 3, Part 2

Ambitious students may be able to complete two semesters, but in any case, parents are responsible for judging if their child can stay focused on working independently before enrolling.

MAKE IT A FULL DAY OF LEARNING. ADD AN AFTERNOON CLASS.

GUITAR LESSONS/BAND \$400

This class is adjusted based on the number of students enrolled. The goal for beginners is to get them playing music quickly. The goal for experienced players is to accelerate their development. The goal for the group is to record a song in our recording studio for the students to keep.

See the registration form for details.

MATH for REVIEW \$400

Students may use the same online program we use in our for-credit classes to prepare to enter Algebra or Calculus in the fall. The **Pre-Algebra** program will expose and fill gaps that result from poor math teaching that is unfortunately too common today. The **Pre-Calculus** class will fill in the gaps left by Common Core IM 1, IM 2, and IM 3.

* Normally, beginner guitar lessons are ½ hour, once per week, with a week to practice in between. **THIS CLASS meets Monday-Thursday. Beginners** learn simple techniques to be able to play familiar songs quickly, and to get the most out of the class, students need to practice nightly to establish muscle memory as quickly as possible. **Intermediate** players will learn the leads to go with the songs we are learning, and the goal is to make a recording by the end of the class.

¹ If you wish to receive transferable credit for the class, the fee is \$650 for each class. Confirm class availability with office staff before registration. Math classes start online May 1 and are completed in class June 10 to July 3. Credit repair classes must be completed by August 2 to receive transferable credit.
